

BEST PRACTICES WORKSHOP

Alberta Recycling is pleased to offer this workshop that provides in-depth information on the Recycling Program Requirements for effectively managing electronics, paint, and tire collection sites (which can also help you to become a Collection Site of Excellence!). We have been presenting the workshop during SWANA's Manager of Landfill Operations Course but if you are interested in having a workshop conducted in your region, please call our office at 1-888-999-8762 to discuss the details and make the arrangements.

Best Practices put into Practice!

Willow Creek Regional Waste Management Facility's Electronics Collection Area

Aquatera Eco Centre's Paint Collection Area

Two Hills Regional Landfill's Tire Collection Area
