

1. County of Stettler project site prior to re-construction

2. Installation of TDA

3. Construction Completed

4. Promotional Sign Installed at the Project Site

We're testing to see if **360,000** scrap tires will make this road better.

The diagram shows a cross-section of the road surface. On the left, a white truck with a red trailer is shown. Below the truck, the road surface is divided into two test cells. The left test cell is labeled 'TEST CELL' and consists of layers of gravel, soil, geotextile, and recycled tires. The right test cell is also labeled 'TEST CELL' and consists of layers of gravel, soil, and recycled tires. The diagram is set against a blue background.

GRAVEL **GRAVEL**

SOIL **SOIL**

GEOTEXTILE **GEOTEXTILE**

RECYCLED TIRES **RECYCLED TIRES**

TEST CELL **TEST CELL**
