

Electronics Supplier Advance Disposal Surcharge ('Surcharge') Remittance Instructions

1. The Surcharge Report is an online form used to report/remit the amount of Surcharges ('environmental fees') collected on eligible electronics sold during a reporting period.¹ Unless Electronics Recycling Alberta (the Program) directs otherwise, the reporting period is a calendar month, and fees are due 30 days following the close of the reporting period.
2. In accordance with Section 9 of the *Electronics Recycling Bylaw*, all outstanding environmental fees are subject to interest charges.
 - Alberta Recycling applies interest charges to all overdue amounts at a rate of 15% per annum. (For any outstanding amount that was due and payable prior to July 1, 2015, interest will be calculated at 12% per annum up to that date and 15% per annum on and after that date.)
 - Interest is calculated from the date on which the remittance was first due and payable, to the date on which full payment is received by Alberta Recycling.
 - Once payment has been received a further notice will be sent indicating any interest payable.
3. Summary of Payment Methods
 - **Pay with online banking** – Initiated through a Supplier's own financial institution.
 - **Pay using Electronic Funds Transfer (EFT)** - Initiated within a Supplier's own accounting system for Suppliers with an EFT payment system
 - **Pay by mail** - Submit the report online and then mail cheque or money order to our office.
 - **Pay by Interac E-Transfer** - Send to electronics@albertarecycling.ca. If prompted to supply a password, please use your 6 digit Supplier Registration ID.
4. Please be reminded that regardless of which payment method is utilized, the fee remittances must be received by the Program within 30 days following the reporting period. Payments are payable to "Electronics Recycling Alberta". Once you have completed the remittance, a transaction receipt and submission acknowledgment will be sent to you via email.
5. **If you have not sold any eligible electronic sales in a reporting period, you are still required to submit a 'nil report'**. It is an offence under the *Designated Material Recycling and Management Regulation* to fail to file reports as required by the Program, including filing a misleading report.

¹ This information is subject to the requirements of the *Freedom of Information and Privacy Act*.
