They're in our basements, in our garages, Stuffed in storage rooms...and worse. Some are even being tossed in the garbage. In Alberta, old tires, paint, electronics and used oil are being shoved to the side instead of being recycled. It's time they were put in their place. ((spot for municipality to fill in - i.e. "In ((community name)), you can bring your leftover paint, empty paint cans and spray paint cans, computer equipment, TVs, tires, and used oil to..." Call ((number)) for more information Keep up the good work Alberta.
